The English School | The Oxford Handbook of International Relations ... The English School of international relations is the oldest and arguably the most significant rival to the American mainstream. The English School purports to offer an account of international relations that combines theory and history, morality and power, agency and structure. One obvious consequence of this level of theoretical ambition is Realism | The Oxford Handbook of International Relations - Oxford Academic The academic study of international relations can be considered a debate about realism. Realism provides a foil against which many other schools of thought define themselves and their contributions. Take realism out of the picture and the identities of these other schools as well as the significance of their arguments become much less clear.

Critical Theory | The Oxford Handbook of International Relations ... Specifically, a critical theory of international relations examines "the problem of community," understood as how the members of bounded communities (states) determine the patterns of inclusion and exclusion in the international system (Linklater 1992). This project has three components, a normative inquiry into the meaning of emancipation Case Study Methods | The Oxford Handbook of International Relations ... Abstract. This article focuses on a third generation of qualitative methods research. Third-generation qualitative methods provide a unique bridge between the single-logic-of-inference and interpretivist communities. Accepting comparison and intuitive regression as part of its underlying justification, the third-generation case study approach ...

The Oxford Handbook of International Relations Abstract. The Oxford Handbook of International Relations offers the most authoritative and comprehensive overview to date of the field of international relations. Bringing together an impressive collection of international relations scholars, this Handbook debates the nature of the field itself, critically engages with the major theories 4 The Point is Not Just to Explain the World but to Change It The Oxford Handbook of International Relations Contents Contents Search in this book. Chapter 2 The State and International Relations David A. Lake. David A. Lake Political Science, University of California, San Diego. Find on Oxford Academic. Google Scholar. David A. Lake is the Gerri-Ann and Gary E. Jacobs Professor of Social Sciences and Postmodernism | The Oxford Handbook of International Relations | Oxford ... Abstract. This article situates postmodernism in international relations through its most fundamental and powerful characteristic: its systematic denaturalization of the real and the given, with the aim of social critique in the name of some ethical good. It presents some criticisms of postmodernism and a strong defence of its ongoing value and ...

The New Liberalism | The Oxford Handbook of International Relations ... This is the central insight of liberal international relations theory. Three specific variants of liberal theory focus are defined by particular types of state preferences, their variation, and their impact on state behavior. Ideational liberal theories link state behavior to varied conceptions of desirable forms of cultural, political Constructivism | The Oxford Handbook of International Relations ... The constructivist approach leads to a different interpretation of international anarchy from the one offered by neorealists or neoliberals, and, to the extent that the concept of anarchy organizes international life, it therefore leads to different understandings of world politics more generally.
